**From:** Craig A. Kazin – Supervisor, Market Analysis  
ISO Information Contact (413)535-4124

**Date:** December 6, 2011

**Subject:** Weekly Reporting of Metered Generation by Fuel Type

On January 12, 2012, the Weekly Market Report located on the ISO website at this URL [http://www.iso-ne.com/markets/mkt\\_anlys\\_rpts/wkly\\_mktops\\_rpts/index.html](http://www.iso-ne.com/markets/mkt_anlys_rpts/wkly_mktops_rpts/index.html) will be enhanced to include daily totals of revenue quality metered output by fuel type for the preceding week.

Generation totals on a *monthly* and *annual* basis began appearing on the website earlier this year at this URL: [http://www.iso-ne.com/markets/hstdata/rpts/net\\_eng\\_peak\\_load\\_src/index.html](http://www.iso-ne.com/markets/hstdata/rpts/net_eng_peak_load_src/index.html).

The Weekly Market Report will report totals that include both market and settlement-only generators. To maintain data confidentiality, the report will aggregate fuel types into categories as displayed below:

REPORT CATEGORY	SPECIFIC FUEL TYPES	TOTAL GENERATORS IN CLASS (12/5/11)
COAL	COAL	14
	COAL/OIL	
GAS	GAS	55
HYDRO	HYDRO: PONDAGE	311
	HYDRO: PUMPED STORAGE	
	HYDRO: RESERVOIR	
	HYDRO: RUN OF RIVER	
NUCLEAR	NUCLEAR	5
OIL	DIESEL OIL	141
	JET FUEL	
	OIL	
	OIL/GAS	
REFUSE	LANDFILL GAS	89
	METHANE/REFUSE	
	REFUSE	
	STEAM	
	STEAM/REFUSE	
WOOD/REFUSE		
SOLAR	SOLAR	49
WIND	WIND	34
